

*Founded in Berlin in 2011, Auticon launched in the UK in 2016. Since then, we have expanded rapidly and have built a great team of consultants and an impressive client list of mainly FTSE 100 companies. Auticon is a social enterprise that exclusively hires autistic adults as IT and compliance consultants. We provide our corporate clients with a means to tap into the amazing talents of autistic people while providing well paid long-term careers for our team.*

## Manager IT Consulting

Full time, based in London | £60 - £80k pa depending on experience

### Are you:

- Working in the UK for an IT consultancy business?
- Experienced in a wide range of technologies?
- Keen to manage and mentor a team of brilliant IT consultants?
- Looking for a job that will change the world for the better?
- Willing to commit to a genuine social purpose?
- Come and join us at Auticon, we promise it will change your life!

Auticon is a successful and fast-growing multinational social enterprise. We recruit brilliant autistic people and provide them with the support that they need in order to achieve their potential. Our consultants work with many of the largest companies in Europe and deliver consistently excellent results.

Our existing Manager IT Consulting is leaving to run Auticon Switzerland so we need someone to fill this exciting role.

### You will need:

- Very wide technology knowledge and experience as our team has skills across development, testing, analytics, compliance and many other areas;
- Great people skills;
- The ability to develop and build client relationships; and
- A willingness to engage with a startup ethos.

We have lots of autism expertise in-house so you will not need any specific autism knowledge or experience (but please do let us know if you do have!). However, you will need to become as passionate as we are about our mission if you are to succeed in this role.

As a small but expanding company, there will be many opportunities to advance within the business.

Bring some meaning to your life and apply today!

Please send your CV and, more importantly, a cover letter setting out what you think you can bring to this role, to our UK CEO:
