

*Founded in Berlin in 2011, Auticon launched in the UK in 2016. Since then, we have expanded rapidly and have built a great team of consultants and an impressive client list of mainly FTSE 100 companies. Auticon is a social enterprise that exclusively hires autistic adults as IT and compliance consultants. We provide our corporate clients with a means to tap into the amazing talents of autistic people while providing well paid long-term careers for our team.*

## Project Manager

Full time, based in London | £60 - £80k pa depending on experience

### Key responsibilities

Oversee our team of 20-30 consultants on the autistic spectrum  
Liaise with clients' senior management and build up a long term strategic relationship  
Support clients' IT, compliance and transformation projects and ensure Auticon's projects are delivered smoothly  
Provide technical guidance for our autistic consultants and support for our clients

### Sales

- Build and develop business relationships with clients
- Speak to C-level of leading global companies to introduce Auticon
- Recognise and optimise sell on potential
- Travel to our clients in the UK

### Project management

- Manage and oversee all Auticon UK's projects and consultants
- Make sure consultants feel comfortable and work to our clients' expectations and standards
- Monitor projects and assess the need for support and training
- Design progress reports and manage expectations with stakeholders
- Track project milestones, budgets and deliverables
- Draft proposals
- Develop services and new business opportunities

### Management

- Manage teams of consultants onsite
- Assess, mentor and support our consultants on the autistic spectrum
- Manage 20 to 30 consultants directly
- Manage GBP 3-5 million / year in projects
- Provide (technical) guidance to our consultants in the projects and define training programmes

### Ideal candidate

Strong track record as Project Manager with 8+ years of professional experience, ideally in the IT consulting business  
Experienced in managing teams of 10+ consultants  
Experience in the areas of software development, testing, data and compliance  
Knowledge of various project management and delivery methodologies (Waterfall, Agile and KANBAN), preferably certificates in ISTQB, Prince2 and/or COBIT  
High level of communication, interpersonal and presentation skills  
Leadership talent and strong commercial awareness  
Honest motivation to support a social enterprise in developing careers for autistic adults

### What we offer

Career progression within a fast-growing business  
Great team of people to work alongside  
Job satisfaction that comes from making a real difference  
Interesting and technically challenging projects  
Opportunity to provide a unique service and talent pool to corporate clients  
Competitive salary and benefits package
